

Fireball -426

DSP with Built in 4 Ch Class AB Amplifier

OWNER'S

MANUAL

WARNING!

PLEASE READ CAREFULLY BEFORE USING

Wiring Diagram

This Unit can be installed in glovebox compartment or at back of Android Headunit. It depends by each car model space available and Power connector cord of 100CM and 20CM is supplied as standard accessory. For Installation, Please check with local dealer.

Technical Specification

Audio

- RMS Power : 28WX4(4Ω), @ 14.4V
- Maximum Power : 45WX4(4Ω)
- RMS Power : 48WX4(2Ω), @ 14.4V
- Maximum Power : 72WX4(2Ω)
- Distortion (THD) : <0.010%
- Operating Voltage : 9V-16V
- Mosfet Power Supply
- S/N Ratio : 85dB
- Frequency Response : 20Hz-20KHz(±3dB)

Input

- 4 Ch High Level Input

Output

- 2 X RCA Output
- Analog EQ : Bass/Treble ± 12dB
- Dimensions (LXWXH) : 145mmX94mmX43mm
- Weight : 0.7Kgs

Features

- Class AB Amplifier
- High output power capability
- Low output noise
- Built in Temperature detection to prevent high temperature burn-in.
- Built in 16.5/10A regulated power supply ensures full power output of the amplifier.
- Easy Installation, no Wire cutting, Plug and Play.
- Improves sound output for any Android Headunit.

Accessories :

DSP Amplifier, 100CM Power Connector, 20CM Power Connector
User Manual, Warranty Card
