

Aura Venom- 4064Q

Hi End Android Multimedia Receiver

Introducing the Aura Venom Hi-End Android Multimedia Receiver – Elevate Your Car Audio to Unprecedented Heights!

Prepare to be blown away by the Aura Venom Hi-End Android Multimedia Receiver, a marvel of automotive technology that redefines what's possible for your car's audio and entertainment system. Packed with the latest innovations and cutting-edge features, this powerhouse device sets new standards for in-car entertainment, connectivity, and performance.

Key Features:

Crystal-Clear Visuals: Immerse yourself in a stunning 9-inch 2.5D tempered touch screen with QLED technology, boasting a remarkable 1280X720 resolution that brings every detail to life.

CPU : Why 12NM? A Leap Ahead of NM14:

Our 12nm (nanometre) chipset, powered by the Unisoc UIS7862S 8-core processor (2A75+6A55 ARM cores), ensures unrivalled efficiency and performance. Compared to the conventional 14nm technology, the 12nm architecture optimizes power consumption while delivering a significant boost in processing speed. Your driving experience becomes smoother, more responsive, and more energy-efficient, making the Aura Venom a standout choice.

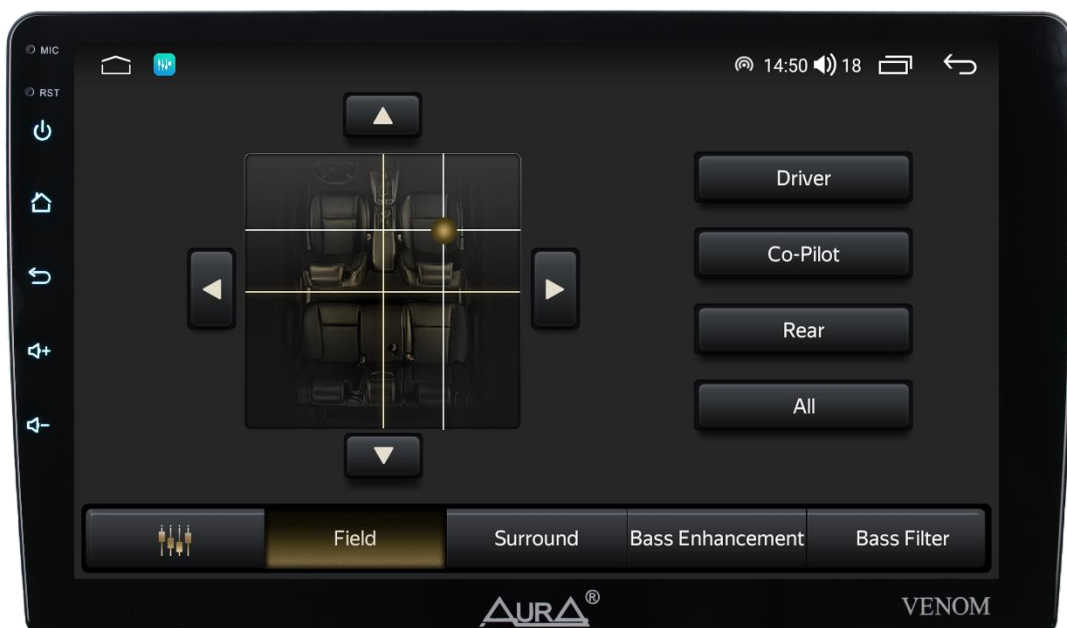

Dual-Band Connectivity: Enjoy the convenience of 5GHz and 2.4GHz support, ensuring fast and stable internet connections, whether you're streaming, navigating, or staying connected.

Advanced Amplification: With the TDA7851 amplifier IC and TDA7708 radio IC, experience superior audio quality that's finely tuned for an exceptional listening experience.

Immersive Sound: The ROHM 32107 DSP and coaxial and optical outputs allow for precise sound tuning, while the 32-band EQ, Surround sound, Bass Enhancement, and Sound Filter features offer unparalleled audio customization.

Ample Storage: With 4GB of RAM and a spacious 64GB ROM, you'll have the capacity to store your favorite apps, music, and media.

Cutting-Edge Connectivity: Stay connected with 2 x 4G slot (Internal and External), ensuring uninterrupted access to your favourite content and apps. The Aura Venom boasts not one, but two 4G slots, providing both internal and external options for seamless and robust internet connectivity."

Latest Android Experience: The Aura Venom runs on Android 12, providing a user-friendly and feature-rich environment for all your digital needs.

Wireless Convenience: Seamlessly integrate your smartphone with CarPlay and Android Auto, offering both wireless and wired connectivity options.

360-Degree View: The 1080p 360-degree camera transforms parking and manoeuvring into a breeze, enhancing safety and convenience.

High-Definition Rear Camera: Capture your journey in remarkable detail with the 1980x1080 rear camera, ensuring clarity and security on the road.

Precise Navigation: GPS, Galileo, and Beidou support guide you to your destination with pinpoint accuracy.

Power Efficiency: The Aura Venom is designed with your vehicle's battery in mind. It consumes less than 7mA when the car is turned off and not in use for 3 days, ensuring your battery stays charged and ready.

Personalized Key Colors: Customize your Aura Venom with changeable key colors to match your car's interior and your style.

Audio Excellence: Enjoy fiber optic and coaxial digital outputs, supporting 4.1 channel audio (4 speakers + 1 subwoofer) for a fully immersive sound experience.

(RCA Cable)

Optical Cable(Included)

Easy Control: Short press and long press functions for steering wheel button control make using the Aura Venom a breeze.

Multifunctional USB: Stay connected and charged with 3 USB 2.0 outputs, accommodating all your devices and accessories.

Complete Kit: Every accessory you need for a hassle-free installation is included with your Aura Venom. "Enjoy effortless digital connectivity with the Aura Venom, thanks to the included Optical Cable, ensuring seamless integration with the Aura Fireball-466 DSP."

Stay Cool on the Road: The built-in cooling fan can be controlled from the settings, ensuring optimal performance and preventing overheating.
