Hi-LOW SIGNAL CONVERTER

USER MANUAL

PLEASE READ CAREFULLY BEFORE USING

Thank you for purchasing the AurA Audio Converter.

This product has been designed, carefully manufactured and thoroughly tested to ensure reliable, trouble-free operation.

If you have any questions regarding the installation or operation of the device, please contact your nearest AurA dealer.

Current list of dealers on the website www.aurael.ru

Precautions and recommendations for use.

The device may become warm during operation. The installation location must be well ventilated.

To avoid extraneous noise affecting the sound quality, make sure that all signal wires coming from the device are at a sufficient distance away from power cables, motors, high-voltage wires and other possible noise sources. Do not place the device in places where there is direct exposure to sunlight, high humidity, or where dust and dirt accumulate.

To avoid short circuits, ensure that all wires are kept a safe distance from moving parts and sharp metal edges.

The device must be securely fastened to avoid injury during sudden braking of the vehicle or an accident.

The positive power wire connected to the +12V terminal must be protected with a fuse.

Disposal Instructions.

WEEE Directive 2012/19/EU on waste electrical and electronic equipment. Old electrical equipment should not be disposed of with other household waste. Please recycle it. Please contact your local authorities for the required information.

The manufacturer guarantees the high quality and reliability of its products, subject to compliance with the technical requirements described in the operating instructions. This warranty is issued for a period of one year from the date of purchase and is valid in the event that the product is found to be defective due to improper quality of materials or workmanship of the manufacturer.

Obligations under this warranty are fulfilled on the territory of the Russian Federation by the manufacturer, selling organizations - authorized dealers of the manufacturer and service centers listed on the manufacturer's website.

The product is not subject to warranty repair if it has the following symptoms:

1. The fact that water or other liquids got inside the product;
2. Incorrectly completed warranty card or its absence;
3. Unqualified installation (connection of the product is not cross-section of wires corresponding to the power, placement in a place, making it difficult to cool the product).
4. Interference with the design of the product.

If controversial issues arise for reasons not included in the above list, the decision is made by the Authorized Service Center after conducting a technical examination.

This warranty is not valid if the product is used for industrial purposes. All terms of this warranty are in accordance with current legislation in the field of consumer protection.
